

Muntor 550

Retanning Agent

Fatliquor

Description

Muntor 550 is a synthetic fatliquoring agent which can be used in combination with other fatliquors in any type of leather manufacturing. It has excellent light fastness property and electrolyte resistance.

It can be used along with crude oils.

Specification

Appearance	Clear Viscose Liquid
Nature	Condensation of Synthetic Esters
Ionity	Anionic
Activity, %	50 ± 1
pH (1:10 solution)	7 ± 0.5
Ionity	Anionic
Safety	According to the best of our experience, it does not have any harmful effect on health
Packing	200 KG PE Drums
Shelf life	1 year

Sulphuric Acid	Fair
Sodium Bicarbonate	Excellent
Ammonia	Excellent
Sodium Chloride	Good
Chromium Salt	Excellent

Storage Conditions

The product should be well sealed and must be stored in covered area between 5-25°C. Freezing and direct sun light must be avoided.

Applications & Recommendations

Muntor 550 has very good penetrative, emulsifying and softening effects to leather.

The dosage of consumption varies with the type of leather and is 2-10% (based on shaved weight in retanning).

Stability

Acetic Acid	Excellent
Formic Acid	Excellent
